

Automate CRA Compliance with Continuous

Help your compliance team prepare for CRA reporting with automation that validates every loan, strengthens data integrity, and keeps your institution audit-ready year-round.

Deliver accurate, defensible CRA submissions without the manual grind: +-----

DATA VALIDATION AT SCALE

Ensure every CRA-reportable loan is verified against its source documentation—not just a sample. Continuous automates data validation across your portfolio, identifying errors and omissions before they reach an examiner. Say goodbye to reactive audits and hello to proactive assurance as you gain trust in every submission.

ELIGIBILITY CONFIDENCE

Automatically detect CRA-eligible loans based on documentation and system data. Continuous eliminates the manual cross-checks between LOS, scanned files, and spreadsheets—ensuring every qualifying loan earns full CRA credit. No eligible loan slips through the cracks, and your team gets back time to focus on strategic impact instead of manual review.

ALWAYS AUDIT-READY

Every data point, decision, and exception is fully traceable—no more digging through files or inboxes. Continuous builds your audit trail automatically, showing exactly how each field was validated and when. When an exam hits, you're not scrambling—you're showing off your readiness.

DISCREPANCY MANAGEMENT

Stop chasing exceptions through email and spreadsheets. Continuous flags discrepancies between source documents and LOS data and tracks resolution through to completion—giving you faster, cleaner workflows that eliminate rework and build examiner confidence.

QUICK GROSS ANNUAL REVENUE (GAR) REVIEWS

Ensure each loan follows the GAR limits based on the loan type. Continuous can readily display the stated GAR and quickly pull the financial documents of interest that back it up, so your compliance team can confirm the GAR amount every time.

Let compliance do what they do best—automate the rest

With Continuous automating your CRA validation and eligibility workflows, your team can know the peace of mind that comes with:

- ✓ Full CRA credit coverage with 100% portfolio validation
- ✓ Reduction in manual review time
- ✓ On-demand eligibility insights across systems and documents
- ✓ A complete, defensible audit trail for every loan
- ✓ Assurance knowing every submission is complete and compliant

Scale securely and report confidently

On-demand performance
monitoring and reporting

Strengthened data
integrity

Trusted by 1,600+ financial institutions
