

Automate HMDA Compliance with Continuous

Free your compliance team from tedious file checks and manual data scrubbing with automation that carries the load. Continuous gives your team peace of mind through audit-ready, document-backed automation that grows with your institution.

Deliver complete, compliant HMDA submissions without the scramble:

+-----

DATA VALIDATION

Ensure every data point is backed by its source documentation. Automatically cross-check your LOS data against source documents with full traceability—eliminating blind spots, audit risk, and after-hours remediation.

ALWAYS AUDIT-READY

Never scramble for documentation again. With logged validations, traceable decisions, and nightly delivery of completed audit packages, you're ready for any audit or exam, any time.

DISCREPANCY MANAGEMENT

Focus human effort where it matters most. Automatically flag exceptions, so they can be reviewed and actioned when it's convenient for your team.

REPORT GENERATION

Automate clean, complete HMDA LAR submissions, so you can file with confidence.

COLLABORATE WITHOUT CHAOS

Unify your lending operations and compliance team around a single source of truth. Centralize exceptions, notes, and statuses in one workspace—no more version-control headaches or inbox chases.

Let Compliance Do What They Do Best—and Automate the Rest

With Continuous automating your HMDA reviews, you'll gain the peace of mind that comes with:

- ✓ Complete audit traceability across your LOS and documents
- ✓ No need for portfolio sampling—always review 100% of your loans
- ✓ Reduced review effort—spend less time on each file
- ✓ Scalable compliance through cyclical market changes
- ✓ No more last-minute audit scrambles thanks to predictable process and time allocation

Scale securely and report confidently

Seamless LOS and document
system integrations

On-demand monitoring and
reporting

Trusted by 1,600+ financial institutions

Melany Wynn
Chief Compliance & Regulatory Affairs Officer
Frandsen Bank & Trust

"We saved over 80 hours a month on HMDA validation alone. That time now goes to strategic compliance priorities instead of stare-and-compare tasks."
